12 Month	1.50% / 1.51%									
24 Month	2.00% / 2.02%									

### ACCOUNT DISCLOSURES

**Except as specifically described, the following disclosures apply to all of the accounts. All accounts described in this Truth-in-Savings Disclosure are share accounts.**

**1. RATE INFORMATION** — The annual percentage yield is a percentage rate that reflects the total amount of dividends to be paid on an account based on the dividend rate and frequency of compounding for an annual period. For all accounts, the dividend rate and annual percentage yield are fixed and will be in effect for the initial term of the account. For accounts subject to dividend compounding, the annual percentage yield is based on an assumption that dividends will remain on deposit until maturity. A withdrawal of dividends will reduce earnings.

**2. DIVIDEND PERIOD** — For each account, the dividend period is the account's term. The dividend period begins on the first day of the term and ends on the maturity date.

**3. DIVIDEND COMPOUNDING AND CREDITING** — The compounding and crediting frequency of dividends are stated in the Rate Schedule. For Share Certificate - \$10,000.00 accounts, at your option, you may choose to have dividends credited to your certificate account, paid to you by check or transferred to another account of yours. If you elect to have dividends paid to you by check or transferred to another account, compounding will not apply.

**4. BALANCE INFORMATION** — To open any account, you must deposit or already have on deposit the minimum

required share(s) in a Regular Share Savings account. Some accounts may have additional minimum opening deposit requirements. The minimum balance requirements applicable to each account are set forth in the Rate Schedule. For Share Certificate - \$10,000.00, Share Certificate - \$100,000.00, IRA Certificate - \$10,000.00, and IRA Share Certificate - \$100,000.00 accounts, there is a minimum average daily balance required to earn the annual percentage yield disclosed for the dividend period. If the minimum average daily balance is not met, you will not earn the annual percentage yield stated in the Rate Schedule. For accounts using the average daily balance method as stated in the Rate Schedule, dividends are calculated by applying a periodic rate to the average daily balance in the account for the dividend period. The average daily balance is calculated by adding the principal

in the account for each day of the period and dividing that figure by the number of days in the period.

**5. ACCRUAL OF DIVIDENDS** — For all accounts, dividends will begin to accrue on noncash deposits (e.g. checks) on the business day you make the deposit to your account. For all accounts, if you close your account before accrued dividends are credited, accrued dividends will not be paid.

**6. TRANSACTION LIMITATIONS** — For all accounts, your ability to make deposits to your account and any limitations on such transactions are stated in the Rate Schedule. After your account is opened, you may make withdrawals subject to the early withdrawal penalties stated below. After your account is opened, you may make withdrawals of principal subject to the early withdrawal penalties stated below. Withdrawals of dividends are not subject to penalty.

**7. MATURITY** — Your account will mature as stated on this Truth-in-Savings Disclosure or on your Account Receipt or Renewal Notice.

**8. EARLY WITHDRAWAL PENALTY** — We may impose a penalty if you withdraw funds from your account before the maturity date.

**a. Amount of Penalty.** For all accounts, the amount of early withdrawal penalty is based on the term of your account. The penalty schedule is as follows:

Terms of 12 months or less - 90 days' dividends or \$15.00, whichever is greater

Terms of longer than 12 months - 180 days' dividends

**b. How the Penalty Works.** The penalty is calculated as a forfeiture of part of the dividends that have been or would be earned on the account. It applies whether or not the dividends have been earned. In other words, if the account has not yet earned enough dividends or if the dividends have already been paid, the penalty will be deducted from the principal.

**c. Exceptions to Early Withdrawal Penalties.** At our option, we may pay the account before maturity without imposing an early withdrawal penalty under the following circumstances:

- (i) When an account owner dies or is determined legally incompetent by a court or other body of competent jurisdiction.
- (ii) Where the account is an Individual Retirement Account (IRA) and any portion is paid within seven (7)

days after the establishment of the account; or where the account is a Keogh Plan (Keogh), provided that the depositor forfeits an amount at least equal to the simple dividends earned in the amount withdrawn; or where the account is an IRA or Keogh and the owner attains age 59½ or becomes disabled.

**9. RENEWAL POLICY** — The renewal policy for your accounts is stated in the Rate Schedule. For accounts that automatically renew for another term, you will not have a grace period after maturity to withdraw funds without being charged an early withdrawal penalty. To avoid a withdrawal penalty, all withdrawals must be made on the maturity date.

**10. NONTRANSFERABLE/NONNEGOTIABLE** — Your account is nontransferable and nonnegotiable.

**11. MEMBERSHIP** — As a condition of membership, you must purchase and maintain the minimum required share(s) as set forth below.

Par Value of One Share	\$5.00
Number of Shares Required	1
